

## Autumn Term Newsletter 2023

This half term has been a very busy one! In Maths we have been learning about place value and addition and subtraction. In English, we have been learning about fables and have written our own fable based on The Boy Who Cried Wolf. In Science we have been learning about materials and states of matter. In History we are learning about the Ancient Greeks and have analysed some primary and secondary sources. In Geography we are learning about the water cycle and rivers and the jobs that rivers do. In RE we are learning about home and families and we have investigated Jesus' family tree. In Computing we have started our computing science module and have been learning about algorithms. We have created algorithms for a dance in real life and used this to help program a dance on the computers. In Art we are learning about illuminated letters.

We had a big celebration this week when we were commissioned to be Mini Vinnies. We had a lovely assembly and even got some badges and certificates! It was lovely to see so many of our parents and family members there to join in the celebration too.
